

Nhi-Yen Nguyen-Huynh

Ho Chi Minh City | ninhhy23411@st.uel.edu.vn | +84 918214724 | Portfolio

Research Associate

A Research Associate passionate about AI applications in fintech, ESG, and biomedical imaging. Experienced in conducting research and developing AI-driven solutions with practical impact. Aiming to contribute to innovative, cutting-edge advancements through data-centric, interdisciplinary approaches and collaborative problem-solving.

Education

University of Economics and Law – VNU HCMC, E-Commerce – Honor Program Sept 2023 – Present

- GPA: 8.89/10
- **Coursework:** Computer Vision, Generative AI, PyTorch, Deep Learning, Data Preprocessing

Publications

Beyond the pitch deck: How AI is redefining funding predictions Jun 2026

Nguyen-Huynh, N. Y., Pham, A., Le, Q. A., Le, M. N., Huynh, Q., & Trinh, V.
Journal of Information and Communication Convergence Engineering (JICCE), 24(2), 191–198.
<https://doi.org/10.56977/jicce.2026.24.2.191>

Reasoning Startup Profiles: Explainability in Funding Prediction May 2026

Trinh, V., Nguyen-Huynh, N. Y., & Nguyen, Q.-H.
27th Asia Pacific Management Conference (APMC 2026).

Standardizing ESG data and automating sustainability narratives: A multi-layer prompting approach Oct 2025 (Submission)

Nguyen, H. Y. N., Le, H. S., Nguyen, D., Hoang, H. G. N., Tran, H. X., Luong, T., & Trinh, V.
Asia Pacific Management Review.

Revolutionizing ESG reporting: The role of AI in enhancing sustainability transparency Aug 2025 (Accepted)

Nguyen, H. Y. N., Le, T., Tran, H., Nguyen, G., Nguyen, D., & Le, H. S.
Proceedings of the 26th Asia Pacific Management Conference (APMC).

Assessing sperm motility through a multi-modal correlation Aug 2025

Trinh, V., Nguyen-Huynh, N. Y., Bui-Quang, P., Huynh, Q., & Nguyen-Pham, Q. K.
IEEE Symposium on Computers & Informatics (ISCI 2025), Kuala Lumpur, Malaysia.
<https://doi.org/10.1109/ISCI58626.2025.11167457>

From angel to Series-C: Assessing a start-up's funding opportunities Jul 2025

Trinh, V., Pham, A., Le, Q. A., Le, M. N., Nguyen-Huynh, N. Y., & Huynh, Q.
International Conference on Future Information & Communication Engineering (ICFICE 2025).
<https://www.dbpia.co.kr/Journal/articleDetail?nodeId=NODE12293033>

Applying artificial intelligence in data analytics and sustainable development strategies for Vietnamese enterprises according to ESG standards Jan 2025

Nguyen, H. Y. N., & Le, H. S.
Science & Technology Development Journal: Economics – Law & Management.
<https://doi.org/10.32508/stdjelm.v9i1.1530>

A proposal of generative AI applications in digital finance Sep 2024

Le, H. S., Nguyen, H. Y. N., Anh, N. N. T., Thu, B. N. A., & Thu, L. H. A.
Science & Technology Development Journal: Economics – Law & Management.
<https://doi.org/10.32508/stdjelm.v8i3.1366>

Experience

Visiting Research Intern, College of Medicine – Taipei Medical University (TEEP) Jul 2026 – Sep 2026

- Admitted to the Taiwan Experience Education Program (TEEP), sponsored by Taiwan's Ministry of Education and hosted by Taipei Medical University.
- Conducting a research placement on "Artificial Intelligence in Medical Imaging" under Assoc. Prof. Nguyen Quoc Khanh Le.
- Extending prior biomedical computer vision work (sperm motility tracking) into clinical imaging research within an international lab setting.

Secretariat Member / Research Assistant, UAV Ecosystem Strategy Task Force – Apr 2026 – Present
Tay Ninh Provincial People's Committee

- Appointed under Decision No. 6929/QĐ-UBND to the Secretariat Team supporting Tay Ninh Province's Strategy for Developing the Unmanned Aerial Vehicle (UAV) Ecosystem (2026–2030, vision to 2035).
- Provide research support translating AI/data-driven analysis into policy recommendations for provincial technology planning.

Research Assistant, Business Analytics & AI Lab – University of Economics and Law Oct 2024 – Present

- Applied computer vision to biomedical image analysis by tracking sperm motility and concentration using OpenCV, Roboflow, and YOLO-based object detection. Enhanced analysis with YOLO ByteTrack for trajectory tracking and density estimation.
- Developed a Unet++-based model to classify startup funding rounds in the fintech domain. Extended work with Explainable AI methods and prompting strategies to ensure responsible AI outputs.
- Conducted a systematic review on the use of AI in legal education, focusing on international literature and academic methodologies. Applied NLP techniques to extract legal terms and build a vocabulary set, identifying ambiguous or multi-meaning terms in Vietnamese legal documents to support law revision and promote terminological consistency.

Project Member, Application of ChatGPT in Finance Nov 2023 – Jan 2024

- Built a mobile CFA learning app integrating ChatGPT for interactive exam preparation and explanation.
- Conducted model research and implementation to support finance-specific generative AI features.
- Recognized in department-level scientific research competitions. Won 2nd Prize in an interdisciplinary scientific research poster design competition.

Leader, AI Applications for Sustainable ESG Reporting Oct 2024 – Present

- Led the development of an AI-based prototype to support automated ESG reporting and data management using a two-stage prompting approach.
- Participated in the AISTART startup competition, proposing an innovative ESG tech solution.
- Won 2nd Prize at UEL Young Researcher Competition and reached the National Final of the Student Scientific Research Competition.

Member, DA-ICED Project – Ministry of Industry and Trade Mar 2024 – May 2024

- Conducted interviews with retail businesses to explore challenges in digital transformation within the circular economy.
- Collected and analyzed qualitative data to extract business insights related to operational processes and technology adoption.
- Contributed to a research article under the Ministry of Industry and Trade, focusing on digital transition strategies in the retail sector.

Awards and Honors

- Best Paper Award – Talented Bachelor Student Research Conference, University of Economics and Law (VNU-HCM), 2025.
- Second Prize – National Student Scientific Research Competition, Ho Chi Minh Communist Youth Union (Central Committee), 2025.
- Second Prize – UEL Young Scientific Researcher Award, University of Economics and Law (VNU-HCM), 2025.

- Excellent Paper Award – 2025 International Conference on Future Information & Communication Engineering (ICFICE), Guam, USA.
- Selected for the Taiwan Experience Education Program (TEEP), Ministry of Education, Taiwan & Taipei Medical University, 2026.
- Top 5 – Southern Region, MIS Talent Competition, 2026.
- “Five-Good Student” Honor – Vietnam National University, Ho Chi Minh City, 2024–2025.
- Honorary Delegate – Vietnam National Student Association Congress, University of Economics and Law (VNU-HCM), 2025.
- Vallet Scholarship for Academic Excellence, 2025.
- Merit-based Academic Excellence Scholarship (Top Student of Class), 2023-2025.

Skills

Programming Languages: C++, Python, JavaScript, HTML, CSS

Technical Skills: n8n, AI model training, Data Preprocessing, Roboflow, Pytorch

Soft Skills: Time Management, Communication, Team Cooperation, Public Speaking

Language: Vietnamese, English
